

ARBuckle FREED ON THIRD TRIAL IN SHORT TIME

Jury Out Six Minutes Re-
turns Verdict of Not
Guilty.

WANTS TO RETURN

Two Other Legal Matters
Remain in Connection
With Case.

San Francisco, April 13.—“I hold
no animosity against any man. I
want to get back to work in my life
profession. I hope to come back. Pic-
tures are dear to me. They are my
life work. I have no plans just now.
I could not make any until the cloud
was lifted. I will consult with my
friends within the next few days.”

ROScoe (FIFTY) ARBUCKLE

Such was the future outlook of
Roscoe “Fatty” Arbuckle, famous
film comedian, who, on his third trial,
for manslaughter was freed of the
charge by a jury of eight men and
four women after but a minute’s de-
liberation, as outlined by himself to-
day.

“I am an American. I accept the
verdict of an American jury.” This
was the statement of District At-
torney Matthew Brady.

A verdict of acquittal was returned
by a jury last night in the third trial
of Roscoe C. Arbuckle on a man-
slaughter charge growing out of the
death of Miss Virginia Rappe, motion
picture actress. The jury was out six
minutes.

Arbuckle was deeply affected. He
received the verdict with a great sigh
of relief. There was no demonstra-
tion, the court having warned against
it. Mrs. Minta Durfee Arbuckle, the
actor’s wife, cried quietly. Both she
and Arbuckle shook hands with jurors.
Edward Brown, whose presence on the
jury was objected to by the
prosecution, was foreman. There was
a slight delay when the jury returned,
due to the absence of the district at-
torney. The verdict was by acclama-
tion, the deliberation taking less than
a minute. The additional time was
consumed by details.

Two legal matters remain to be dis-
posed of to finally close the Arbuckle
case. The police court information
charging manslaughter will be auto-
matically dismissed on order of court.
Arbuckle will have to face in federal
court a charge of having liquor in
his possession on the occasion of the
party in violation of the prohibition
laws. He is expected to enter a plea
of guilty. As it is a first offense, a
fine is likely.

A family reunion was in order to-
day. Roscoe’s brothers, Arthur and
Harry were in the courtroom when the
verdict was rendered and Arbuckle
spent part of the day with them.

He expects to leave for Los An-
geles about Friday.

Los Angeles, April 13.—Whether
motion pictures showing Roscoe C.
Arbuckle will be exhibited again is
to be determined by the board of di-
rectors of the Famous Players-Lasky
Corporation, whose headquarters are
in New York; it was stated last night
by Cecil B. DeMille, director gen-
eral of the corporation, upon being in-
formed that Arbuckle had been ac-
quitted.

American Railroads On “Up-Grade” To Prosperity Reports Now Indicate

Washington, April 13.—American
railroads are on the “up grade” to
prosperity, according to reports filed
today with the inter-state commerce
commission covering operating in-
comes for February.

With only fifty-five roads showing
deficits, the total net income of all
carriers for the month was \$47,762,-
600, compared to a net deficit of \$5,-
176,800, the same month last year.
This income would produce an an-
nual return of 4.57 percent, the
highest actually earned since the
war and 1.87 per cent higher than in
January.

The improvement in railroad fi-
nances was the result of huge de-
creases in operating expenses, although
revenues also showed declines. The

CENTRAL SECTION OF U. S. MENACED BY FLOODS; DAMAGE IN MILLIONS

Disastrous Spring Season Threatens Year’s Output of Grain and Other Foodstuffs
Cold Weather and High Winds Sweep Section Between Rocky Mountains
and Great Lakes—Hundreds Homeless.

Chicago, April 13.—From the Rocky
mountains to the Great Lakes and
from the Canadian border almost
down to the Gulf of Mexico, the cen-
tral section of the United States is
experiencing on the most disastrous
spring seasons that has been recorded
in years.

Damage running into the millions

already has resulted and the menace
of floods, cold weather and high winds
has not yet abated. Serious apprehen-
sion still exists that the unfavorable
weather conditions will retard the
planting of crops to the extent of cur-
tailing the year’s output of grain and
other foodstuffs.

Reports received here today, tell of

flood dangers in many sections but

particularly throughout Illinois.
At Pekin, Ill., hundreds of persons
today are homeless following the col-
lapse of a dike along the La Marsh
drainage district under pressure of
high waters. Three thousand acres of
farm land are inundated. Refugees are
being housed in tent colonies.

Reports from Cairo, Ill., say that
the levee protecting East Cape Girar-
deau and the Clear Creek drain-
age district including 12,000 acres,
is expected to break momentarily. The
Mississippi river is approaching a
flood stage of thirty seven feet, which
would be the highest since 1844.

The father of waters and its many
tributaries are running brimful of
turbulent, muddy water that menaces
a district of empire-like proportions.

Many towns in Michigan, among
them Cheboygan and Onaway are
fighting to stem floods that threaten
serious damage. The Black and Cheboy-
gan rivers in the region of Cheboygan
are swollen by almost incessant rains
and are threatening to break through
restraining dams. Families in many
outlying sections are marooned and
scores have fled from the danger
areas. At Onaway more than 100 men
are battling to save a 12 foot ledge,
the only link that keeps the Black
river within bounds.

At Paris, Ill., George Martin and
Ray Ornat, farmers, were drowned
when they attempted to ford a swollen
stream.

Thirty homes in north Lacrosse,
Wis., are surrounded by water. The
Fox river at Oshkosh rising rapidly
and considerable flood damage has
resulted in the vicinity of Oconto.

Reports reaching various agencies
interested in crop conditions indicate
that in many sections the recent rains
have prevented the sowing of oats,
spring wheat and plowing for corn.
This delay in seeding will make late
crops and in many sections may pre-
vent entirely the successful cultivation
of large areas.

BOMB EXPLOSIONS WRECK FIVE STORY TENEMENT IN NEW YORK

Three are Injured Seriously as Blasts Throw District
Into Mad Panic Early On Thursday—Two
Arrests Are Made.

New York, April 13.—Explosion of
two bombs wrecked a five story
tenement at 218 Eldridge street early
today, injured three persons seriously
and threw the district into a mad
panic.

Two men were seen running from
the place just before the explosion
occurred.

Two arrests were made as the re-
sult of the round up and questioning
at the Clinton street police station,
of twenty suspects. The men de-
scribed themselves as Rosario Fiel,
43, a laborer, of No. 20, Stanton St.,
and Gasparo LaPiano, 26, a tenant
of the wrecked building.

Police believe the explosion was
caused by a dynamite bomb, but
have no positive evidence to support
a definite verdict.

The roar of the explosion, heard
for blocks, brought thousands into
the streets, who watched frantic wo-
men and children racing along the

roof of the building and clinging to
fire escapes.

Fire started and proved difficult to
fight, because the explosions had vir-
tually wrecked the upper floors.

Injuries were miraculously few,
only six, altogether receiving treat-
ment.

HIS HELICOPTER NOW SUCCESSFUL

Marquis Pescara

The helicopter, which, rising
straight up in the air, has passed a
successful flying test. Here is shown
Marquis Pescara, inventor of the
novel machine. He recently dem-
onstrated the craft before the
French Minister of Air at Issy les
Moulineaux, near Paris.

ASKS PERMISSION TO SUSPEND WORK

Columbus, April 13.—Application
for permission to suspend operations
on and to abandon their Pleasant
Heights and River Branch lines at
East Liverpool was filed today by the
Steubenville, East Liverpool and Beaver
Valley Traction company with the
State Utilities Commission.

The company told the commission
that it has been losing money in
operating these lines and that their
physical condition is such that
neither line can be operated with
safety.

The commission is asked to fix a
date for a hearing on the company’s
application and to investigate its
claims.

DAG CREEK FOR BOY BELIEVED DROWNED

Detroit, April 13.—Eddie Sroka, 17,
is held at county jail today while
deputy sheriffs prepare to drag Con-
ner’s creek for the body of 11 year
old Leon Dragun which, the confes-
sion of his six playmates of Tuesday
indicate will be found beneath the
swollen creek waters in the city of
Mt. Olivet cemetery. After working
all night on the clue furnished by the
story of Harry Trogluski, 12, Sheriff
Coffin arrested Sroka who is alleged
to have suggested throwing Leon into
the creek as a joke and to have forced
the others to carry out the suggestion.

BRITISH COAL MINERS TO SUPPORT U. S. STRIKE

London, April 13.—Active steps
were taken by the British coal miners
today in support of the American
miners who are on strike. Following
a meeting of officials of the British
federation of miners, Frank Hodges,
the secretary, issued the following
statement:

“The British miners have assured
the Americans of their sympathy and
support in the strike. The British
miners will not tolerate any artificial
methods on the part of the mine own-
ers to increase coal exports, such as
ships using coal for ballast.”

GIRL IS DOPED

New York, April 13.—A pretty 22-
year-old girl who said she was Ruth
Kennedy of 144 Jackson Avenue,
Milwaukee, was treated in the Colum-
bia hospital today after she had been
found by a policeman in front of a
west end avenue house, screaming and
waving her arms in the air. She said
she met a couple of men on a train
between Cleveland and Ashabula, O.,
and had some drinks and did not
based on reports from 200 railroads, know how she got to New York.

ALLEGED “WIFE THIEF” HELD ON CHARGE OF SLAYING WASHINGTON WOMAN.

Mrs. Helen Kirby Haines

Bruce E. Haines & Dr. Herbert Bryson
Dr. Herbert J. Bryson is held
by Huntington (Pa.) police, fol-
lowing the slaying there of Mrs.
Helen Kirby Haines, whom he is
accused of having “stolen” from
her legal husband, Bruce E.
Haines, of Washington. Mrs.
Haines disappeared from the

household of her husband in
August, 1920. In Huntington
she lived as “Mrs. Bryson,” de-
spite the fact that her legal hus-
band denies having been di-
vorced. Haines asserts that, he
will spend his last dollar to
prosecute the man “who stole my
wife from me.”

Element In Congress Sees Sentiment Against Dry Law

Three Notable “Liberal” Victories Scored at Polls This
Week Contribute to Belief That Public
Wants Modification

Washington, April 13.—For the
first time since the anti saloon league
blew its hot, dry breath across the
United States sweeping everything be-
fore it, the small “liberal” element
in congress seriously believes that
the tide of popular favor is turning
against the Volstead law so strongly
that something can soon be done
toward modifying the law—probably
along the line of light wines and
beer.

PRINCE OF WALES GUEST OF JAPAN

Tokio, April 12.—Edward, Prince
of Wales, is the guest of Japan.

All eastern Japan, in gala attire,
bade him welcome. Arriving at Yoko-
hama on board the battleship Rep-
town, the visiting prince landed on
Japanese soil at 9:30 this morning.
A special train bore him to Tokio
central station where Hirohito,
prince regent of Japan, the imperial
princes and officials of state greeted
him. Rockets and the roar of wel-
coming guns announced his arrival
to waiting thousands who lined the
streets.

COAL OPERATORS ARE SCORED BY BECK

Washington, April 12.—Charging
that the public is being subjected to
“outrageous profiteering” at the
hands of coal operators, Rep. Beck,
Republican of Wisconsin, appeared
today before the house labor com-
mittee and demanded that congress
take action to throw open to public
inspection all the income and excess
profits taxes of coal operators and
dealers. This would reveal, Beck said,
the extortionate profits made by the
operators and dealers, whom he
charged with responsibility for the
present strike.

UNEXPECTED IS MOST EFFECTIVE IN MANY CASES

It is the UNEXPECTED that
proves unusually effective in an ad-
vertising way today—that is, in some
cases at least.

Doing the unexpected—catching
the other fellow napping—slipping it
over on him in other words, has won
many a battle for success commercial-
ly. In fact you MUST take advan-
tage of every opportunity to further
your business.

Like Babe Ruth, the home-run
king, who occasionally pulls the un-
expected by laying down a bunt and
getting away with it, you too should
pull the unexpected in an advertis-
ing way.

And in love and war, and business,
especially advertising, it’s the per-
son who is wide awake to every situa-
tion that wins out.

ALLIED PROGRAM FOR EUROPE PUT BEFORE RUSSIA

Reconstruction Plans Are
Laid Before Soviet Dele-
gates; Ask Delay.

LOAN NECESSARY

Allies Believe Russia Must
Have Capital to Get Back
On Her Feet.

Genoa, April 13.—The allied pro-
gram for the reconstruction of Rus-
sia has been put directly up to the
soviet government by the bolshevik
delegates and delay of 24 hours has
been asked before Russia’s answers
made. The Russians were to have
given their reply to the allied pro-
posals this afternoon. The Russians
are handicapped in communicating
with their government by the weak-
ness of the wireless plant at Moscow.

The allied experts hold that a loan
or the creation of credits is necessary
for Russia, if the country is to be
put upon its feet economically. So far
Russia has not secured any outside
capital with the exception of one
small loan from a Scandinavian coun-
try.

Furthermore, it is proposed that a
joint commission be created, com-
posed of both Russians and allied
citizens to determine the method by
which Russia shall pay her foreign
debts. It has been suggested that
some of the methods introduced to
enforce German indemnity payments
be borrowed in the case of Russia to
compel the payment of foreign debts.
In this connection the proposal has
been made that bond issues be
covered the amount of the foreign
debts, which would be guaranteed
by an allied government.

It is generally expected that the
allies will have the right to ex-
amine the Russian accounts and to
with the domestic affairs of Russia.
It is generally expected that the
allies will oppose a majority of the
proposals, particularly the proposal
that a court be created to assure the
property rights of foreigners and
that the allies be given extensive
control of Russian trade.

By their aggressive attitude the
Russians have made it plain that
they will not bend their knees to se-
cure recognition of their govern-
ment.

London, April 13.—Semi official
denial was made today that Premier
Lloyd George will present a pact to
the Genoa conference guaranteeing
the peace of Europe for ten years.
The press is divided upon the possi-
bility of such action by the premier.
According to the Daily News, the
“little entente”—Jugo-Slavia, Czechos-
lovakia and Roumania—opposes
any such suggestions. It is believed
in some quarters that Lloyd George’s
proposed visit to the Vatican at the
end of the week may have some con-
nection with his desire to introduce
a ten year peace pact.

WELL KNOWN BRITISH AVIATORS WHO WERE TO HAVE ATTEMPTED TRIP AROUND WORLD KILLED IN ENGLAND

London, April 13.—Sir Ross
Smith and J. M. Bennett were
killed at the Brooklands flying
field today while testing an air-
plane for around the world flight.
Sir Ross Smith was to have
started on the globe encircling
journey within three weeks. He
is one of the best known aviators
in Great Britain.

Smith and Bennett had been
in the air for 15 minutes. The
machine got into a flat spin and
took a nose dive, landing on top
of a shed. Smith was killed in-
stantly but Bennett lingered for
several moments. Sir Keith
Smith, a brother to Sir Ross, saw
the accident from the field. He
had planned to accompany his
brother on the round the world
flight.

FIRE DESTROYS ART BUILDING ON GREENE COUNTY FAIR GROUNDS EARLY THURSDAY

Fire of unknown origin completely destroyed the Art Hall, belonging to the group of buildings on the Greene County Fair Grounds Thursday morning at five o'clock, causing damage estimated at between \$2,000 and \$3,000.

The building was in flames when discovered by men staying at the stables on the grounds, and it was considered too late to make any effort to save the structure from destruction.

The Art Hall was one of the largest buildings on the grounds, of entirely frame construction, with a sawdust floor, and four entrances. It was in a bad state of repair and the Fair Board had planned extensive repairs to take place this summer before the county fair, including a new roof, the construction of a wooden floor and other repairs.

Fair authorities said Thursday that considerable trouble had been experienced from people breaking into the building at night. Although no official investigation has been started it is believed that some one in the building Wednesday night, dropped a cigar or cigarette which smoldered in the sawdust until almost daylight before blazing up.

County commissioners, who have charge of insurance, were not in session Thursday morning, but it is the belief of members of the fair board that the loss will be covered by insurance. Brant Bell, Treasurer, of the board, and J. Robert Bryson, its secretary, both said Thursday that the Art Hall will be replaced by a new building before it is ready for use at the annual fair, in August. Thursday morning Mr. Bryson wrote other fair boards asking for plans used in the construction of modern Art Halls in other places.

The conflagration blazing up from the old frame building is believed to

have ruined several trees in vicinity, that cannot be replaced and constitute one of the worst phases of the loss, it was said Thursday. Five or six trees are believed to have been ruined or partially ruined by the intense heat.

PLAN CONGREGATIONAL DINNER AT MEETING

Plans for the congregation dinner to be served at the First Reformed Church, Monday night, were made by the members of the Woman's Missionary Society of that church, at the meeting held at the home of Mrs. E. H. Eichman, on West Second Street, Wednesday afternoon.

The dinner which is for the members of the congregation and their friends, will be of the nature of a "pot-luck" affair, everyone bringing covered dishes. The china for the dinner will be furnished by the church.

Mr. and Mrs. Thomas Conklin, of South Detroit Street, moved Thursday to New Burlington, where they will make their future home.

Mr. L. M. Garfield is confined to his home on the Springfield pike by illness.

Mrs. Todd Lowry of East Third Street, went to Cuba, in Clinton County, where she will visit until after Easter with her parents.

DOES LAUNDRY WORK AND HOUSEWORK TOO

Surprised to Find Herself Feeling So Well

Taunton, Mass.—"I used to have pains in my back and legs so badly, with other troubles that women sometimes have, that my doctor ordered me to stay in bed a week in every month. It didn't do me much good, so one day after talking with a friend who took Lydia E. Pinkham's Vegetable Compound for about the same troubles I had, I thought I would try it also. I find that I can work in the laundry all through the time and do my housework, too. Last month I was so surprised at myself to be up and around and feeling so good while before I used to feel completely lifeless. I have told some of the girls who work with me and have such troubles to try Lydia E. Pinkham's Vegetable Compound, and I tell them how it has helped me. You can use my testimonial for the good of others."

It's the same story—one friend telling another of the value of Lydia E. Pinkham's Vegetable Compound.

TELEPHONE RATE QUESTION MAY GO TO SUPREME COURT

The telephone rate question, in which the Ohio Bell Telephone Company is seeking to establish higher rates from the Xenia Exchange, will probably be carried to the State Supreme Court by the telephone company following rejection of the company's application for a rehearing by the state public utilities commission. That the commission had turned down the application of the telephone company for a rehearing was the information received Thursday by C. L. Darlington, attorney for the Chamber of Commerce in the rate controversy. The application was filed Mar. 2 and the announcement of its rejection discredits the original report that the rehearing would be held April 18.

Whether patrons of the Xenia exchange will be allowed the refund ordered by State Utilities Commission again hangs in the balance, if the telephone company carries the case to the Supreme Court. When the Chamber of Commerce protested the increased rates a year ago last fall, the state utilities commission allowed the company to put the rates in effect, pending the result of the protest and required the company to post a bond to insure a refund, if the rates were reduced.

The company is allowed 60 days in which to file its petition in error in the Supreme Court, if such is its intention and if this is done action relative to the refund will lie with the court.

It is pointed out, that the telephone company has lost but two rat-

ELEANOR GRACE SAYS

Honey-dew has an entrancing sound. It suggests all sorts of sweet things, and surely nothing could be sweeter than the shade of yellow to which that name has been given. It has a soft pinkish cast that makes it look just good enough to eat.

Somehow, girdles have a way of either making or marring a gown. One of those metal girdles with insets of red jacquer might easily be the making of an otherwise commonplace dress. Those colorful bead girdles that are so popular have the same effect. These bits of jauntiness come at 75c to \$1.75.

A lovely complexion may be natural but very likely much of it comes from the careful selection of all toilet articles. If nature has blessed you with a "skin you love to touch" it is your duty to keep it like that. Jobe's toilet goods counter is exceptional. Stop there the next time you come in.

For the Easter table place cards we have a row of the cunningest bunnies ever, and also yellow jonquil designs alluringly springlike. They will give a festive touch to your table decorations. Only 2c each.

If you are to have Easter guests new pillow slips for the guest room will be in order. We have lovely boxed ones that come in drawn-work and embroidered designs. I can't tell you how pretty they are. You must see them. They are priced reasonably at \$2.00 to \$3.00.

I would suggest that as a gift for your friend's new baby you get one of those exquisite baby books we have on the second floor. They are beautifully bound with white silk and have artistic decorations in pink and blue. Places for a full record of baby's doings up to the time he can walk and talk. In years to come his mother will cry over it, he will laugh over it, but both will treasure your gift. From 50c to \$1.00.

With all the world abloom it seems a shame to stay in doors and sew, especially when you can get ready to wear so reasonably. If you are wanting new dresses for baby come in and see the very dainty ones we have at from 75c to \$2.00.

Lacquered quills are one of the very smartest things in the spring millinery. They are shiny, with an iridescent glint that is very pretty. They make a nifty trimming for the tailored hat. They come at 50c.

OUR "SECRETARY OF STATE" IS WHAT EUROPEAN NATIONS CALL THEIR "PREMIER."

The office of secretary of state is second only in dignity and in importance to the presidency. It is an office which has engaged the service of our greatest statesmen. It is an office which is now filled by one who is conceded, even by senators, to be worthy his illustrious predecessors. It is disgraceful that the senate of the United States should have openly questioned the honorable intent and the veracity of this man. In the bitterness of the campaigns of Mr. Hughes in New York before the people and before the legislature no such accusation was ever leveled at him. Mr. Hearst never charged it. The Tammany orators upon the stump never charged it. To senators of the United States belongs this shameful distinction.

John Hay, who was not only a great secretary of state but one of the gentlest of men, said in a letter to Henry Adams, that in any normal state of affairs a treaty negotiated by the state department should be ratified by the senate in 24 hours. He said it because he, accomplishing with great ability and tact new treaty relationships, saw every one of them go under the hammer of senatorial debate, and found himself accused of stupidity and disregard for his country's needs. John Hay died a martyr to senatorial pinpricking. Charles E. Hughes is fortunately of more militant nature. He has been abused as John Hay never was for achieving as greatly for his country as John Hay achieved. Mr. Hughes will be remembered as John Hay is, remembered, long after his senatorial jacks have been forgotten.

But it is not enough that he should be remembered for the ability he has shown in diplomatic negotiations and the patience he has shown under senatorial abuse. It is the duty of the public not only to applaud the leaders who so well deserve its admiration, but to administer corrective punishment to those who destroy their works. It is the duty of the public, in whose hands alone is the power to advise senators that they cannot remain in public life and operate in the way they have been operating, in showering insult and invective upon the administration not only of the United States but of every other country which has the temerity to do business with the United States.

WHY WE ARE NOT AT GENOA.

Our diplomatic leaders consider the economic rehabilitation of Europe as the sheerest smoke screen for Genoa. To us the conference is purely political, with the notoriously rival schemings of London and Paris dominating its very purpose.

What the United States Government, in its confidential exchanges with Europe preceding our formal declaration to Italy in the Hughes note of March 8, said was that the Genoa agenda does not, in American opinion, begin to get down to brass tacks of European rehabilitation. It leaves untouched the question of balancing European budgets. It provides no systematic program for lifting debt-oppressed European countries from out of the mire of national bankruptcy. It does not remotely approximate the problem of burdensome land armaments. It does not devote a single agenda paragraph to Europe's burning issue of its giant debt to America. There is neither direct nor indirect proof, indeed, that such an issue exists for Europe.

What America does see in the Genoa program is an unblushing effort to "get rich quick" at the expense of the Russian people. It detects in Europe's readiness to sit down with Lenin's delegation an apparent willingness to admit Soviet Russia to the society of civilized nations in exchange for far-reaching economic concessions in Russia.

America concretely detects an Anglo-Franco-German "deal" for the exploitation of Russia, from which everybody is handsomely to profit except the masses of the Russian people, for whom Lenin does not hold anything approximating a legitimate mandate.

As long ago as September, 1921, Secretary Hughes told the world the Washington Conference would hold "a moral trusteeship" for Russia pending its recovery from the miasma of bolshevism. America is not at Genoa, but it is our belief that "a moral trusteeship" for the Russia that hopes-to-be is as urgent as it was when our influence was cast at the Armament Conference in the direction of preserving Russia from political exploitation.

Just as the United States' heart was set against allowing Japan to carve up Far Eastern Russia in a territorial sense, so is America determined European Russia shall not at Genoa be dissected in an economic sense.

CHRISTIAN PEOPLE AND LAW.

President Harding, in an address last week at a religious meeting in Washington City, urged that all good citizens must have respect for law and must stand for law enforcement. Especially, he insisted, all who are in the churches should respect all good laws and should use their influence for the enforcement of all laws. He lamented the apparent loosening of some of the standards of moral life, and a tendency toward laxness as to moral and religious duty. He said: "No nation can survive if it ever forgets Almighty God. Religious reverence has had a very influential and helpful part in our American achievement, and I wish it ever to abide." He prayed that the nation might be reconsecrated in religious devotion and made "abidingly a God-fearing and God-loving people." He urged that the people who are known as leaders or respectable members of society should not allow themselves to be known for their "defiance of some part of the code of law," lest others follow their example and there come about a general disrespect for law, with a breaking down of all restraints and the overwhelming of all the safeguards of our society. Especially he urged that all leaders in the church should stand for respect of law and obedience to law and enforcement of law. We are glad that President Harding is calling to those elements that are lacking here, and pleading with them to take the proper and righteous attitude.

The number and value of sheep in the United States has materially decreased, there having been 36,048,000 sheep, valued at \$173,159,000 on January 1, 1922, compared with 37,452,000, worth \$235,855,000, on January 1, 1921, and 39,025,000, valued at \$408,586,000, on January 1, 1920.

Letters To The Editor

What's To Become Of The Chamber Of Commerce

Editor, Gazette, Xenia, Ohio.
Dear Sir—A suggestion has been made and it seems a very good one and meets with general approval, that the various clubs of Xenia should affiliate and form a community center. We now have the Kiwanis Club, Rotary Club, Automobile Club, Business Women's Club, Greene County Medical Association, Junior Women's Club, the D. A. R., the Fish and Game Club, and various other clubs, none of which have a place for meeting. We suppose that a canvass would show one thousand members in these various organizations, and by forming a community center with a live young woman to act as Secretary for all of them, the expense would be very small and at the same time it would coordinate the work, and while each organization could remain intact, various benefits would be in evidence from such an arrangement.

Xenia needs such a community center badly, and it is being taken up, we understand, by a number of the business men and an effort will probably be made to effect such an arrangement.

The property which was purchased

by the old Xenia Business Men's Association and turned over to the Chamber of Commerce, will, we understand, be no longer used by the Chamber of Commerce, and it seems to us that the proper custodian of this property would be the original purchasers. We believe that the present Chamber of Commerce has little if any financial interest in the property. We have no doubt that an arrangement could be effected by which this property could be transferred to all the clubs of the city for the use and the benefit of the public and it seems to us that this would be a much better arrangement than to parcel this valuable property out to Tom, Dick and Harry and be eventually lost track of.

We trust that the board of managers of the present Chamber of Commerce, will give this matter their very earnest consideration and we would suggest that a meeting of the men who were owners and custodians of this property be called so that their wishes may be obtained before any disposition of the property is made.

Charter Member of the old Business Men's Club.

STANDING OUT

I have always been greatly interested in the disinterested attitude of every for most nature. The blade of grass, the single flower. The tall lonely looking tree.

But how they stand out! Each a personality that is not afraid to assert itself.

And if you will note each unit in this same world of Nature, you will note that each has its own job to perform. It is not influenced by what is around it, except in a broad, general way. A tree in a forest usually does better than one standing alone. But, there is character to a tree no matter where it grows.

To stand forth with a definite plan to work out, and determined to carry it through, is bound to give you prestige and reward.

And your own independence is sure to inspire many others to strength.

Many of us grow as we see growth in others. We are unified by the greatness of success as a fact, and with the many wonderful things that are all the time being accomplished about us, we are made to feel our own responsibility and so are spurred

to be great and useful too.

I listened in the other night to a Radio entertainment. To say that I spent a thoughtful period afterwards is putting it mildly.

Surely this is a world of wonderful achievements. Men are growing greater every day in their appreciation of what can be done.

It wasn't so very long ago that many of the things which we now look upon as common helps in our passing world, were looked upon as impossibilities. I noted in a newspaper the other day that the entire population of the United States could easily ride in automobiles, and cars owned by the American people. And it wasn't so very long ago that I remember what a sensation was created by the first automobile that came to our little town.

And now the very breath of a man miles away can be heard through the air.

Surely the achievements of men who have had courage stand out in this time and age. Which emphasizes the responsibility of each one of us who is able to see and understand what all these things mean.

AVIATORS OFF ON THIRD LEG OF ATLANTIC TRIP

Lisbon, April 13.—Lieut. Sacadura and Lieut. Coutinho, Portuguese aviators, who are making a 4,000 mile trans-Atlantic trip from Portugal to Brazil planned to hop off this morning on the third leg of their flight from the Cape Verde islands to Fernando Noronha. This was the longest stage of the journey, being more than 1,300 miles in length. The aviators intended to make a landing at St. Paul rock, 360 miles from Fernando Noronha to re-fuel from a Portuguese warship.

AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home which is messy and troublesome.

Nowadays we simply ask at any drug store for Wyeth's Sage and Sulphur Compound. You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.

BULGARIAN BLOOD TEA

assists nature to cast the poisons from the system, flush the kidneys and enrich the weak blood. You can feel your younger if you use this pure herb tea as a spring tonic. Sold by druggists everywhere.

PILLS.

I take pink pills to cure my ills, my gout and flu and tetter; I swallow ten, and now and then I think I'm feeling better. I read the boast of Dr. Yost, who does much advertising; his pills, no claims, cure gents and dames with quickness most surprising. His ads appear throughout the year in every moral daily; his pills will cure the rich and poor he tells us, proudly, gayly. The village doc is prone to knock the pills he sees me taking; "These healing guys who advertise," he says, "are always faking. Oh, come to me, my friend," says he, "when you are sick and jaded; I'll feed you pills of nux and squills that have the Yost pills faded." But old Doc Yost he gets the most of all the coin I'm earning; he takes his stand, throughout the land he keeps his lantern burning. In every sheet I chance to meet his pills are recommended; day after day we hear him say, "My pills are truly splendid. My pills are made of junk and jade, of barks and buds and simples, they'll cure catarrh and leave no scar, they'll banish boils and pimples." Physicians roast this Old Doc Yost who keeps on advertising, and still he thrills about his pills, whose sales are most surprising.

NOVEL STUNT USED AT KIWANIS MEETING

What promised to result in a physical encounter, preceded by verbal pyrotechnics in which the lie was passed and a revolver fired, proved to be a prearranged part of the program at the meeting of the Xenia Kiwanis Club at the Elks' home, Wednesday evening.

The "trouble" started when John M. Davidson, who was in charge of the program, declared before the members of the club following a short talk upon insurance by S. M. McKay, that "friction had developed." He proceeded to take Charles Kelble to task, ably seconded by McKay, for alleged wrongs, and when Kelble took quick exception to their remarks a row was started in which a gun was pulled. There were no casualties, however, and it required no explanation on the part of the entertainment committee to assure members that the whole affair was a "stunt."

Dr. Benn P. Rathbun and Henry J. Roth, both members of the Springfield Kiwanis Club were present Wednesday evening to invite members of the local club to attend the district meeting to be held in that city April 25. While no definite plans have been made by the local club in this connection it is thought likely that local Kiwanians will send a large delegation to Springfield.

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

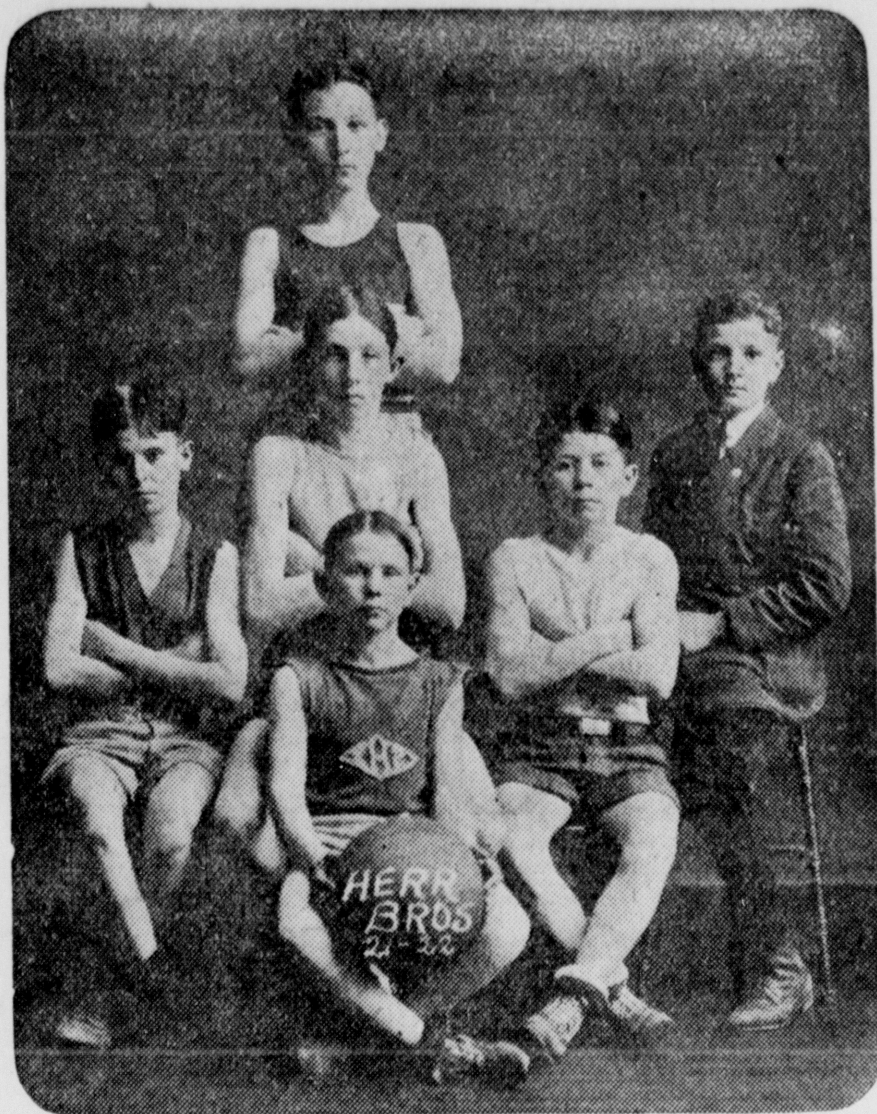

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief. Eat what you like. 15c and 30c

THIS TEAM HAD GOOD SEASON

Left to right, top—William Courter; Second row—James Cain, George Grotendick, George Herr and Robert Shoup; Below Joe Herr.

The above picture shows the Herr Brothers Basketball team, in one of its characteristic poses—mostly sitting down. The figure in the upper rear is not that of Napoleon. That fellow is one of the players and belongs in the picture. George Shoup, who is the gentleman in civilian clothes and the red necktie, is not the owner of the Cincinnati Reds. Neither is he the manager of the Herr

Brothers team. He was induced to get in the picture because the team needed a guy with civilian clothes on, to set the picture off, and pose as manager. Joe Herr is shown in the X. H. S. emblem he won by beating another kid to it when they both spied it at the same time. The team gets its name from the Herr Brothers. George and Joe, who happen to own the basketball. Simple, what? Unlike the Eagles, who set up a record for few victories this season, the Herr Brothers have won seven games and have not lost a single one.

JUG OF LIQUOR 25 YEARS OLD LOST BY MISTAKE

Leesburg, Ohio, April 13.—More than a quarter of a century ago four young men of this village formed a swimming party. The weather was hot and the favorite "hole" inviting. To guard against cramps and untoward contingencies a jug of liquor was purchased Saturday and hidden in Orval Sanders's barn.

In the party was Harry Frazier, now of Dayton, Ohio, who did not keep the trust, but sent word that he was going riding with a girl. He was seen going down the alley near the barn, where the liquor was stored. When the three members who kept the pact sought the jug it was missing. Sorrowfully, and in anger, the conclusion was reached that Frazier had taken it.

Recently Sanders and his brother, Fred, cleaned the barn. In the hayloft they found a number of jugs which once had held linseed oil and paint. Being of no account, they were thrown into the barnyard and smashed. One contained liquid but thinking it, too, was oil the same fate was voted. When the smash came a wonderful aroma arose. It was that of whiskey at least a quarter of century old.

Orval looked at Fred, and Fred looked at Orval. Then they said in unison: "Harry didn't steal it after all!" Next, they wept, gazing mournfully upon the broken jug.

Common Sense About Eczema and Eruptions!

Here's Something About S. S. S. That You'll Be Glad to Hear.

You might just as well know it right now—the cause of skin eruptions, pimples, blackheads, boils and so on is right in the blood. There is no getting away from it. Science has proved it. We prove it. You can prove it.

When the cause of skin troubles and eruptions is in the blood, it isn't com-

Let S. S. S. Give You An Angelic Skin! Common sense to simply treat the skin. A bottle of S. S. S. will prove to you what is happening in your blood. S. S. S. is a scientific blood cleanser—it drives out the impurities which cause eczema, tetter, rash, pimples, boils, blackheads, blotches and other skin eruptions. When these impurities are driven out, you can't stop several very nice things from happening. Your lips turn naturally rosy. Your eyes sparkle, your complexion clears. It becomes beautiful. Your face looks like that of a goddess. Tired, well-to-do, refined gentlemen or if you are a woman, your complexion becomes the real thing that the whole world so admires. S. S. It costs little to have this happen to you. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

HELD ON COMPLAINT OF DAYTON ORCHESTRA

William H. Judkins, colored, was arrested by Patrolman Charles Simms, Wednesday night, on complaint, of musicians composing a Dayton orchestra, who complained that Judkins refused to pay them for playing for a dance he staged at the rink, Wednesday night.

Judkins, who says he is from Chicago, and who has been living with Joe Roberts, 618 E. Main St., is said to have offered the orchestra players a check, which they refused to accept. He is said to have issued two checks yesterday, on banks supposed to be in Chicago, but which are not in existence, but reclaimed them before there was an attempt to cash them.

Judkins was locked up at police headquarters Wednesday night and \$4.65 which he had on him was turned over to the musicians. They claim \$24.35 still due. He was released Thursday morning.

MORE THAN THREE HUNDRED PEOPLE HEAR ADDRESS

More than three hundred people gathered at the Reformed Church Wednesday night to hear the prophetic discourse on the events which are taking place today, which are in exact line of prophecies uttered by our Lord Jesus Christ in the address which he made on the Tuesday of Passion Week as to the nations coming into the league of nations evening into the Reformation of the old Roman empire.

The Rev. Mr. Middleton made unusually plain the movements which are heading up in the orient; the beginning of the going back of God's ancient people, the Jews, to their Promised Land; the entrance of General Allenby going into Jerusalem on the eve of a Jewish fast day; the restoration of the Jews to their leadership among the nations, especially since the close of the war, in manifested activities in world affairs.

He also showed that the conditions of indifference in the Church of Jesus Christ, of which Paul, the apostles, Peter, John and Jude, all spoke in unmistakable terms that anyone can understand; and that Jesus Christ showed who the Anti-Christ is to be and who will be the culmination of all embodied evil in that day when the Israelites shall pass into the melting pot of the refining process of persecution commonly known as the great tribulation of which the prophet Daniel spoke as being unequalled in any time of the history of the world.

Thursday night the great subject of the Armageddon will be discussed. The Rev. Frank Watkins will sing.

THIRTY THOUSAND RETURN TO WORK

Cleveland, April 13.—More than thirty thousand idle since March 1, as a result of failure to reach an agreement upon a new wage scale, returned to work here today, under the terms of a truce arranged between the Building Trades Union and the Building Trades Employers' Association by which the 1921 scale, under which the highest paid trades received \$1.04 per hour, will be in effect pending negotiation of a new scale. It is expected that a permanent wage will be worked out this month.

Contracts for construction amounting to nearly \$20,000,000 have been held up, awaiting the return of peace. Under the agreement reached it is expected that work will be immediately started on all these projects.

PURCHASES 15,000 ACRES FOR PRESERVE

Columbus, April 13.—For the state, Director of Agriculture has purchased 15,000 acres in Scioto County. This property constitutes 20 tracts of waste, cut-over timber land within five miles of a brick road. The purchase price ranged from \$4 to 5 per acre.

Twenty thousand acres, paid for with money from the hunters' license fund will be used as a game preserve and will be reforested and stocked with all kinds of game. The remaining 10,000 acres, paid for with funds appropriated by the Silver reforestation law, will be devoted solely to forestation purposes. Hardwood seedlings will be planted this spring.

BALFOUR IS EARL

London, April 13.—King George V. has conferred an Earldom upon Sir Arthur James Balfour, it was officially announced.

An endeavor to substitute "an istocracy of brains for an aristocracy of birth" is embodied in a bill for the reconstitution of the House of Lords, which Colonel Claude Lowry obtained the permission of the House of Commons to present.

He's Richest Man in Great Britain.

Lord Glenconner.

Lord Glenconner, who before he was titled was known as the Hon. Christopher Tennant, is the wealthiest young man in Great Britain. He has amassed a huge fortune from the famous Tharsis Copper Mines of Spain and other businesses. His title was inherited from the late Lord Glenconner, eldest brother of Mrs. Margot Asquith.

THINKS PROSPEROUS DAYS ARE AHEAD FOR THIS COUNTRY

Columbus, April 13.—"Prosperous days are ahead when the banks are lowering their interest rates and when material and labor are low, as is the case today.

"Business is not back to normal yet, but it is improving, according to reports we are getting from all over the state. Everyone is more confident more hopeful. One shoe manufacturer told me he was shipping more shoes than ever before. The pottery business, in which Ohio leads all other states, is having a pretty good business." Thus W. E. Langdon, certified public accountant and industrial engineer at Columbus sums up the industrial situation today.

"Construction work, especially building of homes, is prospering more than any other industry. This will give labor a chance to earn money, materials will be bought and sold, railroads will move more freight cars and money will be released in all of the industries.

"The textile business, which was the first to be hit, has been the first to pick up. The iron and steel industries are improving their business. The price of farm products is increasing. The electrical supplies business is increasing in volume.

"There will soon be more orders for everything, but competition will be keen. From the bankers' standpoint, the more slowly business improves, the more stable it will be."

to soldiers' memorial will be erected at Camp Sherman; if the remaining seven districts follow the example by the Middle-North district, a conference conducted at Willard April 7 and 8. Believing that this is not time, when so many vital things needed by the World War veterans, erect a monument in their memory spot, the future of which is so in doubt the Middle-North district women voiced their opposition.

state. A program of excellent quality made up the two-day session. This was due to the splendid work of Mrs. Louis Burgher, Oberlin, district president; Mrs. H. F. Murray, president of the Willard federation; Mrs. Leon Mathews, general chairman, and the various committees. Delegates and out-of-town visitors, were royally entertained.

OHIO FEDERATION NOTES

The Cincinnati Woman's club points the way for other clubs to make money for some good cause. It recently conducted a luncheon-sale that raised \$2,040 for a children's play ground. A huge birthday cake presented in honor of the twenty-eighth anniversary of the club by the chairman, Mrs. J. C. Gallagher, was sold by the slice and brought \$17. Master Harry Dunham garbed as a poor boy of the playgrounds, presided over a mite box and turned in more than \$55 to the fund. A beaded bag and a liberty scarf were sold at good prices. Fresh eggs, new maple syrup, Cottage cheese, jelly, jams, fruits and other delicacies were for sale, and all of the offerings "went like hot cakes," according to one enthusiastic Cincinnati club woman. The civics, literature and home economics departments of the Cincinnati Woman's club started the playground fund with \$100 each.

Mrs. George Zimmerman, Fremont, former president of the Ohio federation has returned home from a visit to the Bermuda islands.

Additional Society

GIVEN SURPRISE BY CLUB MEMBERS

Members of the "Jus-Tus" Club arranged a pleasant surprise for Mrs. Walter Dimmitt at her home on Leaman Street, Wednesday evening. Seventeen guests enjoyed the affair and games being featured. The members of the club brought well filled baskets, a lunch being enjoyed at a late hour.

BIRTHDAY PARTY HAPPY OCCASION

The fourth birthday of little Miss Betty Jane Filson, daughter of Mr. and Mrs. Roy Filson, of Harbine Ave. Wednesday, was the occasion of a happy party, at the Filson home. Several young people, playmates of Miss Betty Jane, were invited to spend the afternoon with her, games and music being the entertaining features. Later refreshments were served the young guests, a birthday cake with pink and white candles being an interesting note.

Betty Jane's guests were, Betty Jane Arden, daughter of Mr. and Mrs. Earl Arden; Sarah Jane Filson, daughter of Mr. and Mrs. F. F. Filson; Margaret Custer, daughter of Mr. and Mrs. John Custer; Virginia Doren, daughter of Mr. and Mrs. Charles Doren, and Master Robert Emery Strayer, the son of Mr. and Mrs. Charles Strayer.

The A. C. Turrell Union of the W. C. T. U. will meet at the home of Mrs. Mary L. Collins, on North Detroit Street, Friday afternoon. The program of the afternoon will be on "Child Welfare."

FIRST M. E. LADIES AID HOLDS ALL DAY MEETING.

The Ladies' Aid Society of the First M. E. Church held its regular monthly meeting at the church Wednesday. And appetizing and abundant covered dish lunch was served at noon, and the afternoon was devoted to sewing. A large number of the members were present and many from outside the society came in at the noon hour and enjoyed the lunch.

BEAUTY CHATS

PLEASANT BATH WATERS Bathing only becomes a luxury when the bath can be taken in a large tub well filled with water that is soothingly warm or refreshing cold or when there are all sorts of patent devices in the way of showers or needle sprays. Then to make the bath more truly luxurious it should be followed by a cold rinse, preferably with salt water, which is stimulating to the skin and excellent for the nervous system and the general health. This should be followed by a vigorous rubbing down with a course towel.

I wish everyone would realize that the best bath towel in the world is a medium sized unbleached Turkish towel. This is almost too stiff and rough the first few times, but after a couple of launderings it will be perfect. Incidentally, these unbleached towels cost less than the white ones which have gone through acid baths to attain their snowy color; and incidentally, these unbleached towels were just three or four times as long. If you use one of these with moderate vigor you will rub your skin into a rosy glow which will make you feel you had never been ill a day in your life.

A salt water bath is one of the cheapest, easiest and most beneficial to take. Sea salt can be purchased for a few cents a pound and a couple of handfuls dissolved in the tub are all that are needed. A half pound of oatmeal in a bag put in the bath water and squeezed a bit so its milky essence becomes part of the water will make the bath softening and bleaching to the skin. Toilet water or eau de cologne is delightful but somewhat expensive.

A. I. D.—No external treatment will cure this condition you allude to as "flesh worms." You should consult a good doctor as this is a blood trouble from some cause which will have to be cured before the skin is relieved.

Mrs. R. G.—Following a severe spell of illness the hair always becomes depleted, but new hair can be cultivated with the improved condition of the health. Massage the scalp every day until it is loose from the bones. Add a tonic to these treatments about every other day. Do not feel discouraged if the hair continues to come out for all of this old hair is dead. It should drop out and make room for the new hair.

Ma E. E.—Instead of changing your colors in dressing, change this condition. If the whites of your eyes are discolored or yellowed it shows that your liver is torpid, or it will run into a case of jaundice. The green vegetables at this season will help much but a Spring tonic should also be taken.

Tomorrow—The Useful Cream Jar.

AN OLD FASHIONED "BOILED DINNER."

At this season of the year—the transition period between cold and warm weather—the appetite is apt to flag unless two rules are followed: 1. Serve lighter meats rather than the heavy, red-blooded meats, except once or twice a week. 2. Serve foods attractively, to tempt the appetite.

Today I am going to suggest a menu to illustrate the first rule; and next Monday I shall publish an article on "The Simple Garnishing of Food," which will help the housekeeper to observe the second rule.

"Boiled Dinner" Coffee

Apple Sauce Topped With Meringue. Boiled Dinner: Put four pounds of corned beef over the fire to boil in water to cover. Do this at 7 o'clock in the morning if you have dinner at noon. At the same time put six beets, one to a quart, in a separate pot, but after one hour take them out and put them into the pot which contains the corned beef. Cut a small head of cabbage in quarters and let it soak in cold water for one hour; at ten o'clock put the cabbage into a clean cheesecloth bag and add it to the meat pot, but at 11:30 o'clock take it out to drain in a colander. Peel and slice a few turnips and a few carrots and put those into the kettle at 11 o'clock and let boil until 12. The potatoes, too, should go into the kettle with the corned beef in time to be done for a twelve-sharp dinner. A few minutes before serving, reheat the cabbage by putting it back into the pot with the other vegetables. Serve in a large tureen or vegetable dish.

To Make the Meringue for the Apple Sauce: Beat one egg-white stiff, sweeten it with a little granulated sugar, and stiffen it by also beating into it a few teaspoons of any kind of jelly, jam or mashed preserves. Heap this on the apple sauce, and serve. This meringue is excellent to serve on any fruit or pudding; it gives the appearance of whipped cream, and the housekeeper—mother, especially, should use it often to disguise simple desserts (such as canned peaches,

stewed prunes, or sliced oranges and bananas) to make them more attractive to her children.

Steamed Gingerbread Pudding is another fine one to serve. To make it, mix together 1 cup of molasses, 1 cup of hot water, 1 cup of chopped seedless raisins, 1 teaspoon of soda, a little ground clove, ground cinnamon and ground allspice (about 1-2 teaspoon of each) and butter the size of a walnut. Stir this mixture well, then add 3 1-2 cups of flour. Turn all into two baking powder cans (or regular steaming molds), fit on the cover, tying it on with string (right around the can from top to bottom) and place these cans in a kettle of boiling water; let the water boil up around them for three hours, then turn the puddings out onto a platter and serve with any hard sauce, or with a foamy sauce.

Peggy: Answer: Why not have a Sweetbread Salad in your party refreshments? To make it, mix equal parts of parboiled sweetbreads, cut in one-half inch cubes and finely cut celery. Moisten with cream or mayonnaise dressing. Serve Walnut Mousse, as a card party, it is always appropriate to have little cakes cut in the shape of hearts, diamonds, spades and clubs. The sandwiches, too, might be served in this shape. One woman I know served her cake in the shape of dice, using black raisins pressed into the white frosting, for the dots.

Who Are the 10 Great Statesmen?

Do you like to solve puzzles? Good. Then try this new one. It's a peach. See the ten funny sentences above. Rearrange these sentences so that you have the names of ten famous statesmen. For instance, by correctly rearranging Sentence No. 10, you will have our President's name, Warren Harding. If you can rearrange all the ten names you can win First Prize. Most likely you know the names of quite a number of the country's most Famous Statesmen but just to refresh your memory we are listing a few of them: Charles Hughes, Warren Harding, Andrew Volstead, Gilbert Hitchcock, Hiram Johnson, Miles Poindexter, James Reed, Herbert Hoover, Charles Mellon, Henry Wallace, Arthur Capper, William Bryan, Calvin Coolidge, Woodrow Wilson, Henry Lodge, Carter Glass, Charles Denby, John Weeks and Oscar Underwood.

185 "Points" Wins \$1000 Prize

Here's the way to win. If you get 185 points you will be awarded the first prize of \$1,000 or a fine new Oakland Touring Car. You will receive 100 points for solving the puzzle shown above—10 points for each name that you arrange correctly. That will be more than half the battle won. Of the remaining points 60 will be awarded as soon as you prove that you have introduced The Rural American into five homes. You can get the other 25 points by making up the nearest correct list of words out of the first two letters of the last names of the ten statesmen.

DON'T send your list of words in NOW. Just send your answer to the above puzzle. If it is correct it will win you 100 points toward the \$1,000.00 or the Oakland Touring Car. Send in your solution right away. We will write and tell you how to get up your word list.

Easy to Win—Send No Money

You will not be asked to subscribe to The Rural American or to spend a single penny of your money in order to win. We merely want your help in introducing this weekly newspaper to five of your friends. Just write your answer to the Great Statesmen Puzzle on one side of the sheet of paper and PRINT your name and address in the upper right hand corner. The answer gaining 185 points will win the Oakland Touring Car or the \$1,000.00. There are 25 big prizes in all. In case of a tie, all tying contestants will receive the prize tied for. Do your best and you can win. Contest closes May 31st, 1922. Answer the puzzle NOW.

MORE THAN THREE HUNDRED PEOPLE HEAR ADDRESS

More than three hundred people gathered at the Reformed Church Wednesday night to hear the prophetic discourse on the events which are taking place today, which are in exact line of prophecies uttered by our Lord Jesus Christ in the address which he made on the Tuesday of Passion Week as to the nations coming into the league of nations evening into the Reformation of the old Roman empire.

The Rev. Mr. Middleton made unusually plain the movements which are heading up in the orient; the beginning of the going back of God's ancient people; the Jews, to their Promised Land; the entrance of General Allenby going into Jerusalem on the eve of a Jewish fast day; the restoration of the Jews to their leadership among the nations, especially so since the close of the war, in manifested activities in world affairs.

He also showed that the conditions of indifference in the Church of Jesus Christ, of which Paul, the apostles, Peter, John and Jude, all spoke in unmistakable terms that anyone can understand; and that Jesus Christ showed who the Anti-Christ is to be and who will be the culmination of all embodied evil in that day when the Israelites shall pass into the melting pot of the refining process as the great tribulation of which the prophet Daniel spoke as being unequalled in any time of the history of the world.

Thursday night the great subject of the Armageddon will be discussed. The Rev. Frank Watkin, will sing.

THIRTY THOUSAND RETURN TO WORK

Cleveland, April 13.—More than thirty thousand idle since March 1, as a result of failure to reach an agreement upon a new wage scale, returned to work here today, under terms of a truce arranged between the Building Trades Union and the Building Trades Employers' Association by which the 1921 scale, under which the highest paid trades received \$1.04 per hour, will be in effect pending negotiation of a new scale. It is expected that a permanent rate will be worked out this month.

Contracts for construction amounting to nearly \$20,000,000 have been held up, awaiting the return of peace. Under the agreement reached it is expected that work will be immediately started on all these projects.

PURCHASES 15,000 ACRES FOR PRESERVE

Columbus, April 13.—For the state, Director of Agriculture has purchased 15,000 acres in Scioto County. This property constitutes 20 tracts of waste, cut-over timber land within five miles of a brick road. The purchase price ranged from \$4 to 5 per acre.

Ten thousand acres, paid for with money from the hunters' license fund will be used as a game preserve and will be reforested and stocked with all kinds of game. The remaining 5,000 acres, paid for with funds appropriated by the Silver reforestation law, will be devoted solely to forestation purposes. Hardwood seedlings will be planted this spring.

BALFOUR IS EARL

London, April 13.—King George V. has conferred an Earldom upon Sir Arthur James Balfour, it was officially announced.

An endeavor to substitute "an isocracy of brains for an aristocracy of birth" is embodied in a bill for the reconstitution of the House of Lords, which Colonel Claude Lowe obtained the permission of the House of Commons to present.

William H. This national home is to be paid through free-will offering of all federated clubs the Middle-North district going on record as willing to donate its share.

He's Richest Man in Great Britain.

Lord Glenconner, who before he was titled was known as the Hon. Christopher Tennant, is the wealthiest young man in Great Britain. He has amassed a huge fortune from the famous Tharsis Copper Mines of Spain and other businesses. His title was inherited from the late Lord Glenconner, eldest brother of Mrs. Margot Asquith.

THINKS PROSPEROUS DAYS ARE AHEAD FOR THIS COUNTRY

Columbus, April 13.—"Prosperous days are ahead when the banks are lowering their interest rates and when material and labor are low, as is the case today."

"Business is not back to normal yet, but it is improving, according to reports we are getting from all over the state. Every one is more confident now. One shoe manufacturer told me he was shipping more shoes than ever before. The pottery business, in which Ohio leads all other states, is having a pretty good business." Thus W. E. Langdon, certified public accountant and industrial engineer at Columbus sums up the industrial situation today.

"Construction work, especially building of homes, is prospering more than any other industry. This will give labor a chance to earn money, materials will be bought and sold, railroads will move more freight cars and money will be released in all of the industries."

"The textile business, which was the first to be hit, has been the first to pick up. The iron and steel industries are improving their business. The price of farm products is increasing. The electrical supplies business is increasing in volume."

"There will soon be more orders for everything, but competition will be keen. From the bankers' standpoint, the more slowly business improves, the more stable it will be."

PLEASANT BATH WATERS

Bathing only becomes a luxury when the bath can be taken in a large tub well filled with water that is soothingly warm or refreshing cold or when there are all sorts of patent devices in the way of showers or needle sprays. Then to make the bath most truly luxurious it should be followed by a cold rinse, preferably with salt water, which is stimulating to the skin and excellent for the nervous system and the general health. This should be followed by a vigorous rubbing down with a course towel.

I wish everyone would realize that the best bath towel in the world is a medium sized unbleached Turkish towel. This is almost too stiff and rough the first few times, but after a couple of launderings it will be perfect. Incidentally, these unbleached towels cost less than the white ones which have gone through acid baths to attain their snowy color; and incidentally, these unbleached towels were just three or four times as long. If you use one of these with moderate vigor you will rub your skin into a rosy glow which will make you feel you had never been ill a day in your life.

A salt water bath is one of the cheapest, easiest and most beneficial to take. See salt can be purchased for a few cents a pound and a couple of handfuls dissolved in the tub are all that are needed. A half pound of oatmeal in a bag put in the bath water and squeezed a bit so its milky essence becomes part of the water will make the bath soothing and bleaching to the skin. Toilet water or can de cologne is delightful but somewhat expensive.

A. I. D.—No external treatment will cure this condition you allude to as "flesh worms." You should consult a good doctor as this is a blood trouble from some cause which will have to be cured before the skin is relieved.

Mrs. R. G.—Following a severe spell of illness the hair always becomes depleted, but new hair can be cultivated with the improved condition of the health. Massage the scalp every day until it is loose from the bones. Add a tonic to these treatments about every other day. Do not feel discouraged if the hair continues to come out for all of this old hair is dead. It should drop out and make room for the new hair.

Ma E. E.—Instead of changing your colors in dressing, change this condition. If the whites of your eyes are discolored or yellowed it shows that your liver is torpid, or it will run into a case of jaundice. The green vegetables at this season will help much, but a Spring tonic should also be taken.

Tomorrow—The Useful Cream Jar.

AN OLD FASHIONED "BOILED DINNER."

At this season of the year—the transition period between cold and warm weather—the appetite is apt to flag unless two rules are followed: 1. Serve lighter meats rather than the heavy, red-blooded meats, except once or twice a week. 2. Serve foods attractively, to tempt the appetite.

Today I am going to suggest a menu to illustrate the first rule; and next Monday I shall publish an article on "The Simple Garnishing of Food," which will help the housekeeper to observe the second rule.

"Boiled Dinner" Coffee

Apple Sauce Topped With Meringue. Boiled Dinner: Put four pounds of corned beef over the fire to boil in water to cover. Do this at 7 o'clock in the morning if you have dinner at noon. At the same time put six beets in a separate pot, but after one hour take them out and put them into the pot which contains the corned beef. Cut a small head of cabbage in quarters and let it soak in cold water for one hour; at ten o'clock put the cabbage into a clean cheesecloth bag and add it to the meat pot, but at 11:30 o'clock take it out to drain in a colander. Peel and slice a few turnips and a few carrots and put those into the kettle at 11 o'clock and let boil until 12. The potatoes, too, should go into the kettle with the corned beef in time to be done for a twelve-sharp dinner.

A few minutes before serving, reheat the cabbage by putting it back into the pot with the other vegetables. Serve in a large tureen or vegetable dish.

To Make the Meringue for the Apple Sauce: Beat one egg-white stiff, sweeten it with a little granulated sugar, and stiffen it by also beating into it a few teaspoons of any kind of jelly, jam or mashed preserves. Heap this on the apple sauce, and serve. This meringue is excellent to serve on any fruit or pudding; it gives the appearance of whipped cream, and the housekeeper—mother, especially—should use it often to disguise simple desserts (such as canned peaches,

stewed prunes, or sliced oranges and bananas) to make them more attractive to her children.

Steamed Gingerbread Pudding is another fine one to serve. To make it, mix together 1 cup of molasses, 1 cup of hot water, 1 cup of chopped seedless raisins, 1 teaspoon of soda, a little ground clove, ground cinnamon and ground allspice (about 1-2 teaspoon of each) and butter the size of a walnut. Stir this mixture well, then add 3 1-2 cups of flour. Turn all into two baking powder cans (or regular steaming molds), fit on the cover, tying it on with string (right around the can from top to bottom) and place these cans in a kettle of boiling water; let the water boil up around them for three hours, then turn the puddings out onto a platter and serve with any hard sauce, or with a foamy sauce.

Peggy: Answer: Why not have a Sweetbread Salad in your party refreshments? To make it, mix equal parts of parboiled sweetbreads, cut in one-half inch cubes and finely cut celery. Moisten with cream or mayonnaise dressing. Serve Walnut Mousse, as you suggest, and hot coffee. For a card party, it is always appropriate to have little cakes cut in the shape of hearts, diamonds, spades and clubs. The sandwiches, too, might be served in this shape. One woman I know served her cake in the shape of dice, using black raisins pressed into the white frosting, for the dots.

For instance, by correctly rearranging Sentence No. 10, you will have our President's name, Warren Harding. If you can rearrange all the ten names you can win First Prize.

Most likely you know the names of quite a number of the country's most Famous Statesmen but just to refresh your memory we are listing a few of them: Charles Hughes, Warren Harding, Andrew Volstead, Gilbert Hitchcock, Hiram Johnson, Miles Poindexter, James Reed, Herbert Hoover, Charles Mellon, Henry Wallace, Arthur Capper, William Bryan, Calvin Coolidge, Woodrow Wilson, Henry Lodge, Carter Glass, Charles Denby, John Weeks and Oscar Underwood.

Here's the way to win. If you get 185 points you will be awarded the first prize of \$1,000 or a fine new Oakland Touring Car. You will receive 100 points for solving the puzzle shown above—10 points for each name that you arrange correctly. That will be more than half the battle won. Of the remaining points 60 will be awarded as soon as you prove that you have introduced The Rural American into five homes. You can get the other 25 points by making up the nearest correct list of words out of the first two letters of the last names of the ten statesmen.

DON'T send your list of words in NOW. Just send your answer to the above puzzle. If it is correct it will win you 100 points toward the \$1,000.00 or the Oakland Touring Car. Send in your solution right away. We will write and tell you how to get up your word list.

Easy to Win—Send No Money

You will not be asked to subscribe to The Rural American or to spend a single penny of your money in order to win. We merely want your help in introducing this weekly newspaper to five of your friends. Just write your answer to the Great Statesmen Puzzle on one side of the sheet of paper and PRINT your name and address in the upper right hand corner. The answer gaining 185 points will win the Oakland Touring Car or the \$1,000.00. There are 25 big prizes in all. In case of a tie, all tying contestants will receive the prize tied for. Do your best and you can win. Contest closes May 31st, 1922. Answer the puzzle NOW.

UNCLE SAM OFFERS BOOK ON RADIO TO WIRELESS FANS

Public interest in the radio telephone has developed so remarkably within the past few months that Uncle Sam has published a book for the benefit of the "ether talk" enthusiasts. It is called "The Principles Underlying Radio Communication." It was prepared by the United States Bureau of Standards of the Department of Commerce and published by the Government Printing Office.

Elementary electricity, dynamo-electric machinery, radio circuits, electro-magnetic waves, apparatus for transmission and reception, electron tubes, are the titles of some of the subjects treated. There are 619 pages in all and the price is one dollar at the Government Printing Office, Washington, D. C.

"We have been simply swamped with requests for information on the subject of radio," officials of the Department of Commerce declared today in calling attention to the new "air book."

RADIO SERVICE BULLETIN

Attention was also called to a regular monthly Radio Service Bulletin published by the Bureau of Navigation of the Department of Commerce. According to the radio experts of the Commerce Department, this pamphlet contains current information regarding radio development, names of newly licensed sending and broadcasting stations, their call letters, what they sent out, etc. The Government Printing Office in Washington will send the service to anyone for a whole year upon receipt of 25 cents.
